Animal List

What is the natural habitat of an animal?

The natural habitat of an animal is the environment in which an animal lives.

The animal can find food, make shelter, and find mates to reproduce while being protected from other animals.

Lion	Reindeer	Ostrich
River Otter	Eagle	Sea Turtle
Gorilla	Hippopotamus	Parrot
Koala	Flamingo	Lizard
Polar Bear	Crocodile	Dolphin
Giraffe	Tiger	Bat
Elephant	Red Panda	Snake

Animals

- ✗ Feed themselves by eating plants or other animals.
- ✗ Can sense what goes on around them.
- ✗ Their bodies allow them to move in reaction to their surroundings.
- ✗ Use their senses and movement to find food, mates, and safety.

- Long, Narrow Body
- Flattened Head
- Propeller-Like Tail
- Waterproof Coats
- Long Whiskers

Gorilla

Broad Chest &
Shoulder
Large Hands
Small Eyes
Hairless Face
Flat Teeth
Big Thumbs

Koala

- No External Tail
- Sense of Balance
- Muscular Body
- Strong Limbs
- Rough Pads on Handpalms
- Long Sharp Claws
- Thick Fur

Polar Bear

Thick White Fur

Thick Layer of Fat

Huge Paws

Slip-Proof Footpads

Sharp Claws

Small Ears

Small Tail

Strong Arms & Legs

Very Big

Elephant

- Big Ears
- Very Big
- Short Neck
- Large Trunk
- Tusks
- Strong Skin
- Strong Arms & Legs
- Big Flat Teeth

Reindeer

- Thick Fur
- Fur on Bottom of Hooves
- Broad & Sharp Hooves
- Antlers
- Hair on Nose
- Good Sense of Smell

Eagle

Strong Feet
Very Good Vision
Broad, Long Wings
Powerful Claws
Feathers
Curved Beak

Hippo

Bulky Body
Stumpy Legs
Enormous Head
Short Tail
Very Large Mouth
Nearly Hairless Skin
Ears & Nostrils
Higher on Head

Flamingo

Large Wings
Short Tails
Long Legs
Long & Flexible Neck
Eyes Either Side of
Head
Webbed Feet

Crocodile

Thick, Leathery Skin
Scales
Long Heads
Eyes & Nostrils on
Top of Head
Short Legs
Muscular Tails
Large Body

Tiger

Hair over Body
Powerful Jaw
Sharp Teeth
Muscular LEgs
Sharp Claws
Good Eyesight
Strong Arms
Large Head

Red Panda

Thick Fur
Reddish-Brown
Short Snout
Big, Pointed Ears
Large Heads
Wide Toes
Little Claws
Flexible Ankles

Ostrich

Long Legs
Long Neck
Round body
Small Head
One Strong Claw
Simple Wings

Sea Turtle

Large, Streamlined Shell
Smaller Head
Strong, Wide Limbs that are Flippers
Strong Jaw
Can Hold Breath For Long Period of Time

Parrot

Clawed Feet
Strong Legs
Large Head
Short Neck
Curved Beaks
Two Toes Pointing Forward and Two Pointing Backward On Each Foot

Lizard

Dry Skin With Scales
Flexible Skull
Short Neck
Long Tail
Clawed Feet
Long & Strong Tongue
External Ears
Good Hearing

Dolphin

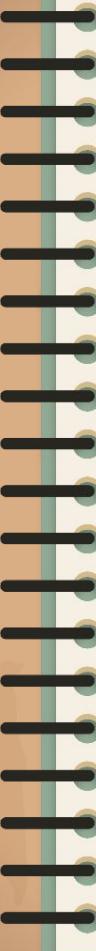

Smooth, Rubbery
Grayish Skin
Powerful Tail
Pectoral Fins
Dorsal Fin
No External Ear Flaps
Elongated Snout

Bat

Large, Pointed Ears
Grey/Brown Fur
Long Arms
Long Fingers
Broad Wings
Claws on Feet

Snake

No Limbs

No Ear Openings

Long, Flexible Body

Scales

Can Coil Up
